# Editor's Note

Welcome to DHSB, a distinguished grammar school in the glorious South West. Our school is renowned across all areas. The ample facilities mean you can do many things to enrich your life as you grow up! Students are able to thrive as the result of dynamic staff and positive student relationships.

# Education

Education is the most important part of a school and is the pure purpose of its existence. We here at DHSB know this and that's why we believe learning is the most crucial part of a school and made it so you can learn and have fun because having fun whilst learning keeps pupil like you intrigued and helps to widen your knowledge. The benefit for you is you learn and have fun and the teachers benefit is they get paid and get to know you. Also when knowing about the education you must know about the

The standards of every teacher is either specialised in there subject or do it part time so you are getting the best the best education as in many primary schools including mine you had one teacher teaching every lesson.

An example of a teacher that is very good at teaching is Mr Braun; he teaches science and from my experience he is the perfect example of a teacher who can teach you and make the lesson interesting.

# All about DHSB Facilities

At Devonport High for Boys, we fortunately have an easy way to navigate across our buildings which should eliminate any Year 6 worries! We were all once in your shoes!

YOU will never get lost – you simply need to know the class number e.g C26. Firstly, go to C Block. This won't be hard as we have signs around each of our 4 main historic block buildings. Now the '2', on our example would mean the floor. So 2 floors up and you are there!

Finally walk out of the stairwell and in front of you will be numbered classrooms.

Our 'Learning Commons' is an essential hub for the school—it can be used as a library but also a great place to use google technology and interact with others, a place to find inspiration! Sport is also at our heart so we are lucky to have 2 astros which can be used for a mix of hockey and football as well as other sports.

In addition there is the ambiance of our great theatre where many students study drama. With our huge range of facilities this will help your aspirations expand and create you a varied path to an illustrious career. On this journey staff will fully support your ambitions.

# Mr Braun- Science Teacher

Today, we interviewed, Mr Braun, who is a Science teacher here at DHSB. He has already taught us many valuable scientific theories. Here are some of the questions that we asked...

**What do you like about this school?**  
The behaviour is exceptional which means that it is easy to teach and help the students learn.

**Why did you want this job?** I did my teacher training here and I loved it so much that I decided to try to stay!

**What do you like most about teaching here?**

The pupils are really enthusiastic about Science and we can cover many varied topics in much depth.

**How do you feel about the facilities here?**

Facilities are very good and the Science department is well equipped.

**What do you think about homework?** Homework can be good at certain stages to ensure success, but we do cover a lot in class so sometimes it isn't essential!

**What is a day like as a teacher in DHSB?** It is busy and you need to multitask but it is incredibly enjoyable.

# Refuel

Sausage rolls, hotdogs, pasties, wraps you name it, we have it. We understand that people have to have school dinners. We provide a range of food, drinks and snacks at very low prices. We have two refuel stations (one mainly for baguette's) and the other for anything.

They are located by the entrance of the school and by the drama studio. These places will be shown to you on your first day at school. The queues for food are not very big, but on a Friday are bigger than normal, as it is fish and chip Friday. To pay, at the start of the year you scan your thumb and then your parents pay onto it through an app. They can also see what you buy.

## Clubs and Extracurricular Activities

Here at DHSB we encourage all our students to take part in a club or extracurricular activity. We vary in sports such as Football, Hockey and Rugby and allow everybody to take part. We also support other clubs such as Homework club and Code-breaking club. One particular sport we thrive in is football. We compete in competitions such as the National Cup, Devon Cup and Plymouth Cup. These activities would take place at lunchtimes and after school.

Additionally, we organise a house football competition between the six houses. Campbell, Edison, Newton, Priesley, Smeaton and Winstanley.

# Puzzle Games

We know sometimes you need a break from reading, so try some of our puzzles.

## DHSB Maths Challenge

Try to fill in the missing numbers.

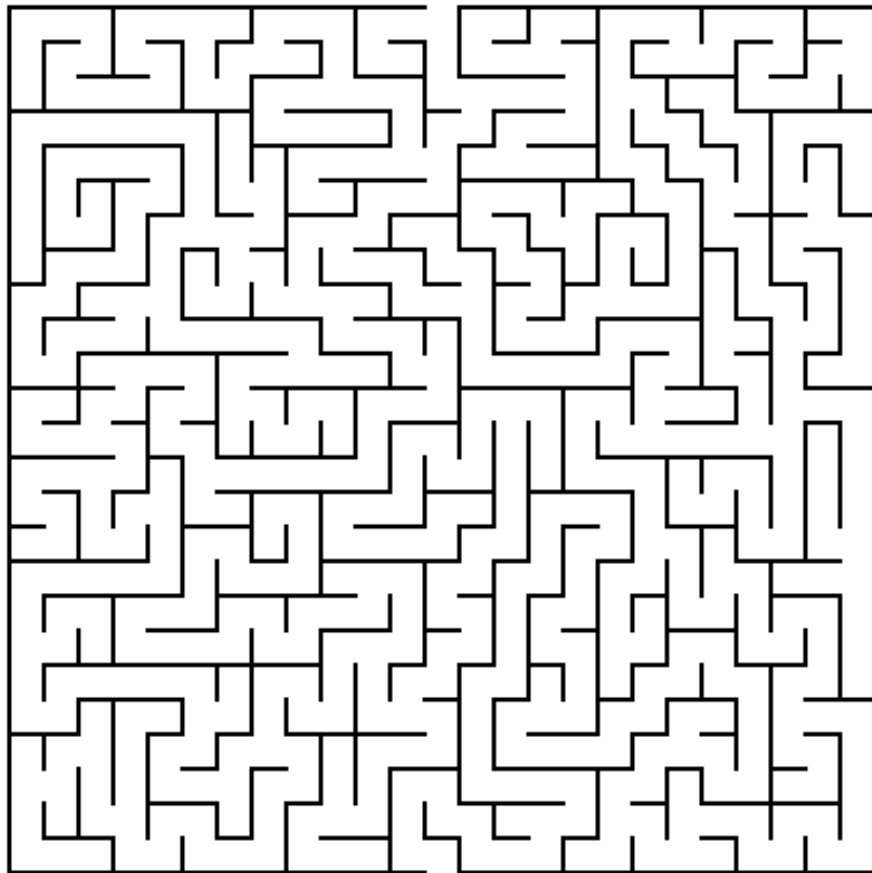

Use the numbers 1 through 25 to complete the equations.

Each number is only used once.

Each row is a math equation. Each column is a math equation.

Remember that multiplication and division are performed before addition and subtraction.

Start

Finish

	x		-		+		-		37
x		+		+		x		+	
	+		-		-		+		21
-		x		x		+		-	
	x		+		-		-		67
+		+		/		+		x	
	+		+		-		+		37
+		+		-		+		-	
	+		-		-		-		-11
34		219		75		384		-40	

# Advice

- When first arriving in Y7 don't be scared to put your hand up and ask a question!
- Be equipped and have everything you need, it helps make your life easier and you may even be able to help a friend.
- At secondary it is critical to plan-prepare the night before!

- Try your best to visit the school first - tours are flexible to suit you and your needs, plus induction days give you a chance to really feel at home at DHSB!
- Be yourself and be happy- make your school days the experience you want!
