Community and Devonport

Site 1: It's a nice place, clean and environment, a few people here and there. Cafe, part 1-3 and a lot of trees for rubbish and benches to chill. The biggest problem is the cricket. Slightly busy a bit worrying, it's a spacious but quiet area.

DL

Site 2: It's a very poor, crummy place, though the Devon cafes that are around are comfortable and welcoming to all. The rest like safety, pollution, maintained etc, aren't very good.

THE DEVONPORT COMMUNITY!

By Gary Clark

The Devonport Park

The Devonport Park is a large communal park part of our place that the local community look a lot of pride in maintaining. This area is filled with activities that a range of ages activities including: a cafe, outdoor music theatre, a children's playground and for the grass ground etc.

Overall, The Devonport Park is a really nice place to go if you live locally and has a lot to see and discover. This is also a very nice place to exercise and stay productive. Finally as a large community the locals have really shaped Devonport Park into a place of wonder.

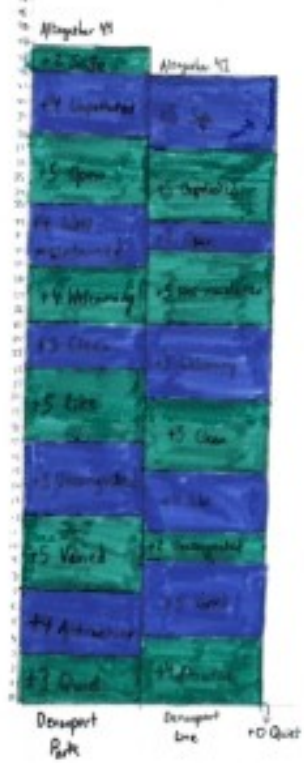

Devonport Live Cafe

Devonport Live is a cafe situated in the main part of Devonport, near the town. As a small cafe they have a small building opposite a road. However what they have built the community activities for it. As one of the first cafes here a policy where anyone is welcome to the cafe and anyone is asked. Allowing for the anyone can pick up for anyone else, the cafe gives their members and of happiness make someone day. As a whole the Devonport Live cafe is a very warm and welcome place.

if graph to show the quality of your place in Devonport

I think Devonport Live is better than Devonport Live altogether because it was greener, larger and more open.

Community in Devonport Plymouth

Devonport Park

Devonport park provides many services for the community with a playground for children to be watched in a cafe where you can relax, walk, grab some fresh air and a break from the bustling city's noise and business and place for the elderly to appreciate nature without being taken over by the city.

Devonport Park: Green Space

Devonport Park is a lovely place to relax and socialise. It has lots of wildlife, trees and grassy areas. In addition to this, it also has a cafe for refreshments, play equipment, ping-pong tables and even a bandstand! It is very clean, quiet, open and safe. Also, it is well-maintained - the grass is always cut and when the paths are clean.

Devonport Live: Cafe

Devonport Live is a community cafe. It is a friendly space where you can buy coffee and delicious hot food. It is a great social spot however due to where it is, it's not the best environmentally.
