

DHSB

Plymouth  
Since 1896

Devonport High School for  
Boys was founded by Alonzo

Rider on Albert Road, Devonport, in January 1896,  
to meet the needs of boys in Plymouth and  
district seeking a career in the Navy, as engineers  
and civil servants.

- Before DTISB was founded, the original site was used  
as a Naval hospital and surgery.
- Before the hospital became DTISB part of it was  
Tamar High School.
- Stoke Damarel (AKA Devonport) Military hospital  
in Plymouth, England was completed in 1797.
- In 1939, the School was evacuated  
to Penzance because WWII and in 1945  
returned to the present site on Paradise Road,  
which has been built in 1797.

Dr. Newton

Sir Isaac Newton  
was an English  
Mathematician, Physicist,  
Astronomer, Alchemist,  
Theologian and Author.

Isaac Newton's IQ was  
190-200. Isaac Newton  
had a quick temper  
and emotional  
breakdowns. This was

because of his lonely Child-  
hood.

Overall, Isaac Newton influenced many other famous Scientists.

He is considered one of the most inspiring people ever born.

Newton revolutionized the world as we see it today.

Isaac Newton  
never remarried.  
He had dedi-  
-cated his life  
to science.

His dog,

Diamond

Started a

fire which

burnt 20 years

of research.

Newton spent most of his  
adult life pursuing another  
interest, Alchemy. One of  
Newton's goal was to  
find the Philosopher's  
Stone. It could turn  
any steel or iron into gold.

In 1705 Newton was

Knighted by Queen

Anne and inherited

money from his mother.

ISAAC  
NEWTON

1643 -  
1727

Isaac  
Newton  
was buried  
in Westminster  
Abbey, London.

Everyone saw  
the apple fall,  
but only Newton  
asked why!
